IMPORTANTE!

01

Este passo a passo foi elaborado para acompanhar o tutorial de instalação do WordPress.

02

Caso encontre um erro de conexão com a porta 21, aconselho pesquisar por conta própria sobre as configurações de propriedade e permissões de seus arquivos.

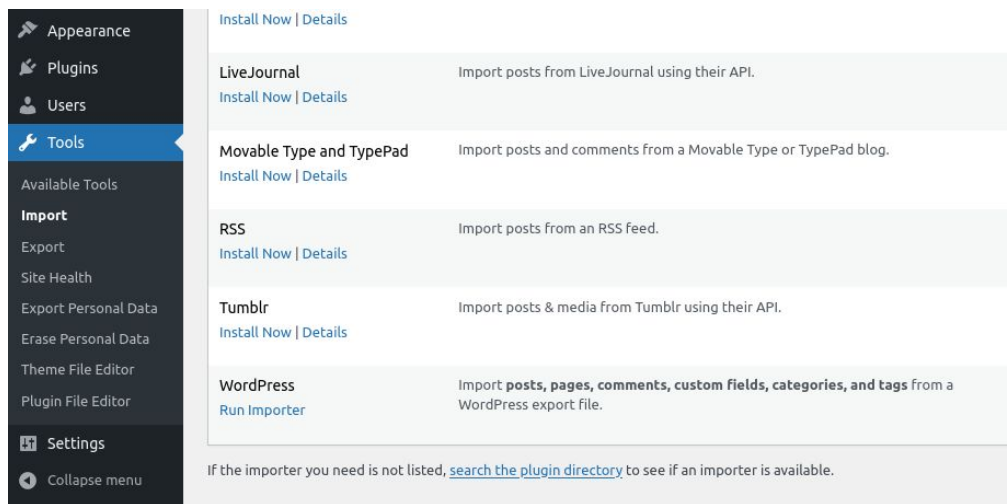

VSFTP

Vamos instalar um serviço FTP para realizar a transferência de arquivos. Você pode simplesmente instalar o VSFTP com o comando `sudo apt-get install vsftpd`, mas se quiser um passo a passo mais detalhado, pode seguir [este](#).

Informações do sistema

1. Na seção **Tools > Import** instale o importador WordPress (último da lista).

The screenshot shows the WordPress administration interface. On the left is a dark sidebar menu with the following items: Appearance, Plugins, Users, Tools (highlighted in blue), Available Tools, Import, Export, Site Health, Export Personal Data, Erase Personal Data, Theme File Editor, Plugin File Editor, Settings, and Collapse menu. The main content area is titled 'Tools > Import' and lists several importers. Each importer has a title, a description, and links for 'Install Now' and 'Details'.

Importer	Description
LiveJournal	Import posts from LiveJournal using their API.
Movable Type and TypePad	Import posts and comments from a Movable Type or TypePad blog.
RSS	Import posts from an RSS feed.
Tumblr	Import posts & media from Tumblr using their API.
WordPress	Import posts, pages, comments, custom fields, categories, and tags from a WordPress export file.

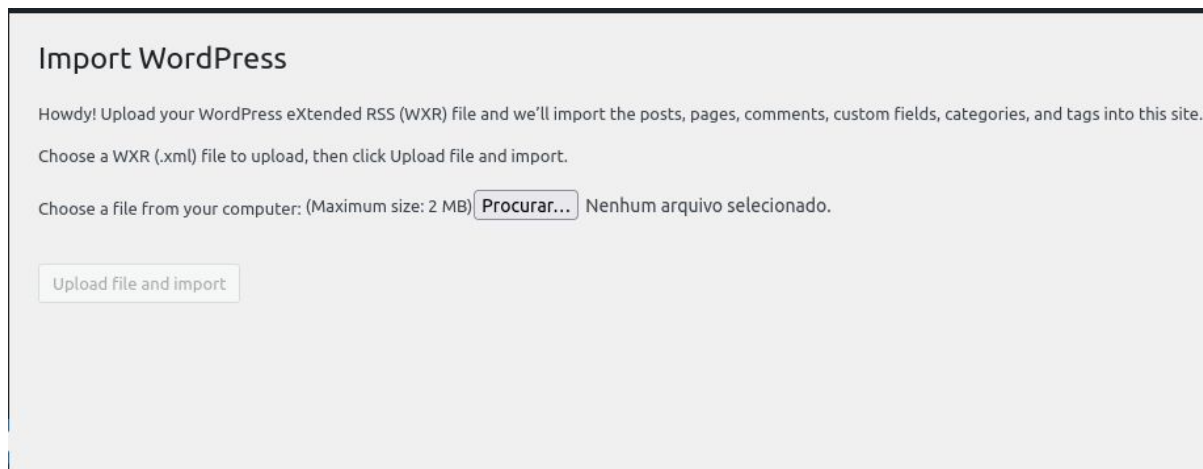

If the importer you need is not listed, [search the plugin directory](#) to see if an importer is available.

Assign Authors

To make it simpler for you to edit and save the imported content, you may want to reassign the author account.

If a new user is created by WordPress, a new password will be randomly generated and the new user

1. Import author: **aline (aline)**

or create new user with login name:

or assign posts to an existing user:

2. Import author: **ifrs (ifrs)**

or create new user with login name:

or assign posts to an existing user:

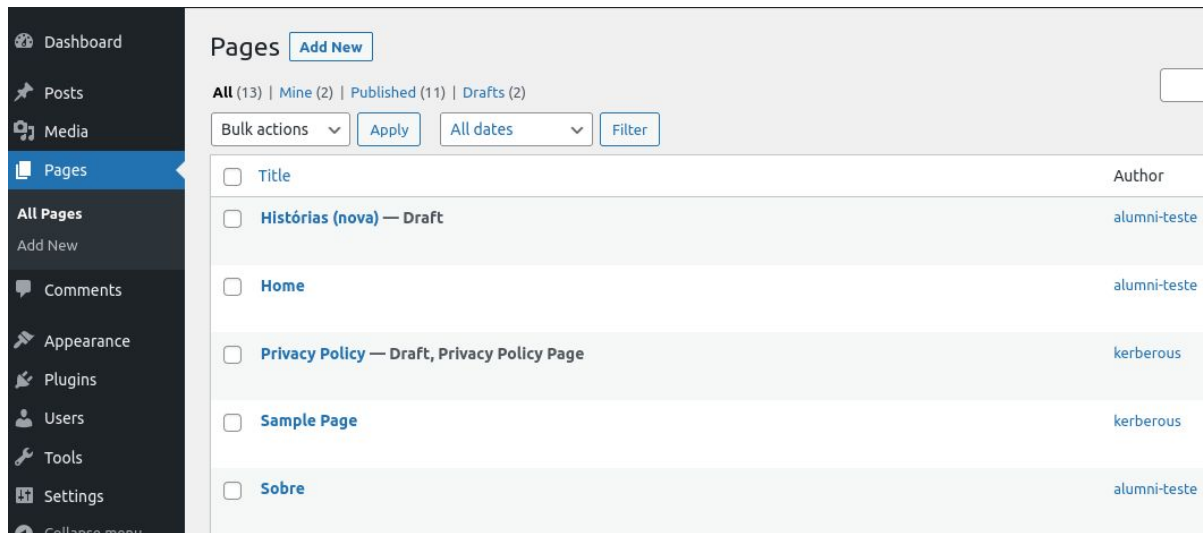

Import Attachments

☒ Download and import file attachments

4. Após importar o arquivo, para evitar problemas de permissão, vamos criar um novo usuário para atuar como autor dos arquivos.
